- L&T Infotech — Dec-2014 to Jan-2017
- Godrej Infotech — Aug-2011 to Dec-2014

CERTIFICATIONS & EDUCATION

- Microsoft Dynamics NAV 2013 C/Side Development (MB7-702)
- Microsoft Dynamics Business Central Functional Consultant (MB-800)
- BE (Electronics & Telecommunication), Terna Engineering College, Navi Mumbai — 2011

BUSINESS CENTRAL AND NAVISION

Technical Experience

- 15+ end-to-end implementation projects and 30+ support projects in Business Central/NAV.
- Experience across Microsoft BC and NAV versions from NAV 3.5 to Business Central Cloud.
- Extensive development, customization, and implementation experience with strong architectural understanding.
- Integrating Navision/BC with other systems and third-party apps using web services and APIs.
- Expertise in developing BC extensions using AL, ensuring scalability and maintainability.
- Proficient in NAV-to-BC upgrade and migration projects: code refactoring and testing for smooth transitions.
- Training delivery and documentation for end-users and stakeholders.

Functional Experience

- Setups and configurations: General Ledger, Posting Setups, Sales & Receivables, Purchase & Payables, Inventory, Warehouse.
- Extraction, uploading and posting of opening balances for customers, vendors, bank, items, F/A and G/L.
- Account Schedule and Analysis View configuration; ledger reconciliation; job queue scheduling and monitoring.
- Requirement gathering, effort estimation, solution design and work distribution.

Integrations

- e-Invoice functionality in Navision integrated with government portals through ISP.
- Shopify, courier partners (Blue Dart, DHL, DTDC), WhatsApp, SMS, MS To-Do, and vendor systems via REST APIs in Python.

- Exchange rates and stock market data (Zerodha API) synchronized into Navision.
- Hosted Navision APIs for data synchronization using Python, web services, and OData.

N8N AUTOMATION

AI-Powered Chatbots & Agents

- Built and deployed 20+ AI chatbot solutions across retail, healthcare, pharma, F&B, and manufacturing.
- Multi-channel bots (Telegram, WhatsApp, Microsoft Teams) with context-aware memory and LLM integration (Groq, Gemini, OpenAI, Azure OpenAI).
- RAG pipelines using Qdrant vector store and embeddings for document-based Q&A.

ERP & Business Integrations

- Email2ERP automation — reads bank/expense emails, extracts transaction data with AI, auto-creates journal entries in Navision/BC.
- AR file import automation for Business Central; Zoho CRM-to-SQL data sync workflows.
- BC-MCP integration connecting Business Central to Claude AI via Model Context Protocol.

Finance, Compliance & Operations

- Polish KSeF e-invoicing workflow: generates, validates, and submits XML invoices to the government portal.
- XML-to-MT940 converter (UBS CAMT.053) for bank statement processing.
- Website uptime monitoring with WhatsApp/Telegram alerting; AI invoice OCR; automated contract note import.

SQL SERVER - GIT - PYTHON

- SQL Server (15+ years): complex T-SQL, stored procedures, triggers, window functions, CTEs; DBA tasks — backup/recovery, performance tuning, security.
- Git/GitHub: repository management, branching, merging, code reviews, issue tracking.
- Python (9+ years): Django, FastAPI, REST APIs, Pandas/NumPy, PDF processing, cryptography; integrations with WhatsApp, SMS, courier tracking, e-invoicing, payment gateways, yfinance.
